Over 90 min of rarely before seen interviews, documentaries, war footage and more from private libraries of veterans from WWII. This action packed and stunning DVD contains the following programs: "Thunderbolt" - This is a color film about the P-47 fighter made by director William Wilder for the US Air Force during WWII. Featuring the P-47 in action over the skies of Italy "Thunderbolt" stands as one of the greatest film resources ever produced on a military aircraft. "The Air Plan" - British production on the bomber campaigns designed to bring the German war effort to its knees and prepare for the cross channel invasion. Follow the bombing campaign as it shifts from strategic bombing to more tactical missions in support of the fledgling Normandy beach heads. Great video history of these tough paratroopers in action as they fight their way across Italy, France, Belgium and Germany.
